## Introducing RDA Exchange Rate licensing: Intrinsic rates of exchange between cryptoassets

Xtant Real®

The RDA Exchange Rate data clarifies the intrinsic exchange rates between cryptoassets based on their underlying attributes. RDA exchange rates enable you to identify the level of speculation in market rates for each cryptoasset pair. Updated at market speed, **RDA Exchange Rates** data offers unlimited opportunities to identify the most rewarding trade pair that will maximise the value of your portfolio.

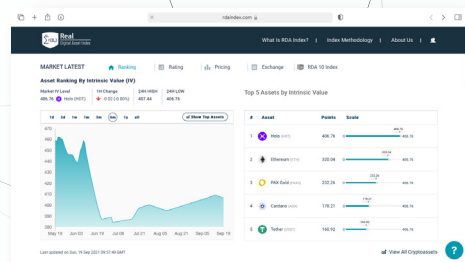

RDA Exchange Rate Data Licensing enables you to:

- Determine the fundamental exchange rates for the top 300 cryptoassets by market capitalisation
- Identify the best value for money cryptoasset pair
- Execute trades to preserve
- your cryptoasset wealth

#	Asset		ETH(1)	HOL(1)	ADA(1)	BT(1)	USDT(1)	MIC(1)	HEAR(1)

### RDA INDEX DISCLAIMER

RDA Index is owned and maintained by Xtant Real, a company registered in England and Wales. Xtant Real does not accept any form of compensation from creators, issuers or sponsors of cryptoassets, nor is its RDA Index intended to endorse or promote investment in any specific cryptoasset. Cryptoassets carry a high degree of risk. The UK Financial Conduct Authority (FCA) and other regulators around the world have expressed concerns with the volatility of cryptoassets and the actions of its promoters. Xtant Real strongly recommends that you review their guidance such as the public statement on cryptoassets by the Financial Conduct Authority.
