

A Sherpa for Cryptoasset Management

Introducing RDA Index Data Suite licensing

Xtant Real®

Revolutionise your cryptoasset management strategy with the most outstanding fundamental analysis data set. Combine **RDA Index Data Suite** with your technical analysis to gain actionable insight into a new world of opportunities. Constantly updated and delivered in a format for seamless integration with your data systems, RDA Index Data Suite offers unlimited possibilities for revenue growth, crypto-consumer protection, and regulatory compliance.

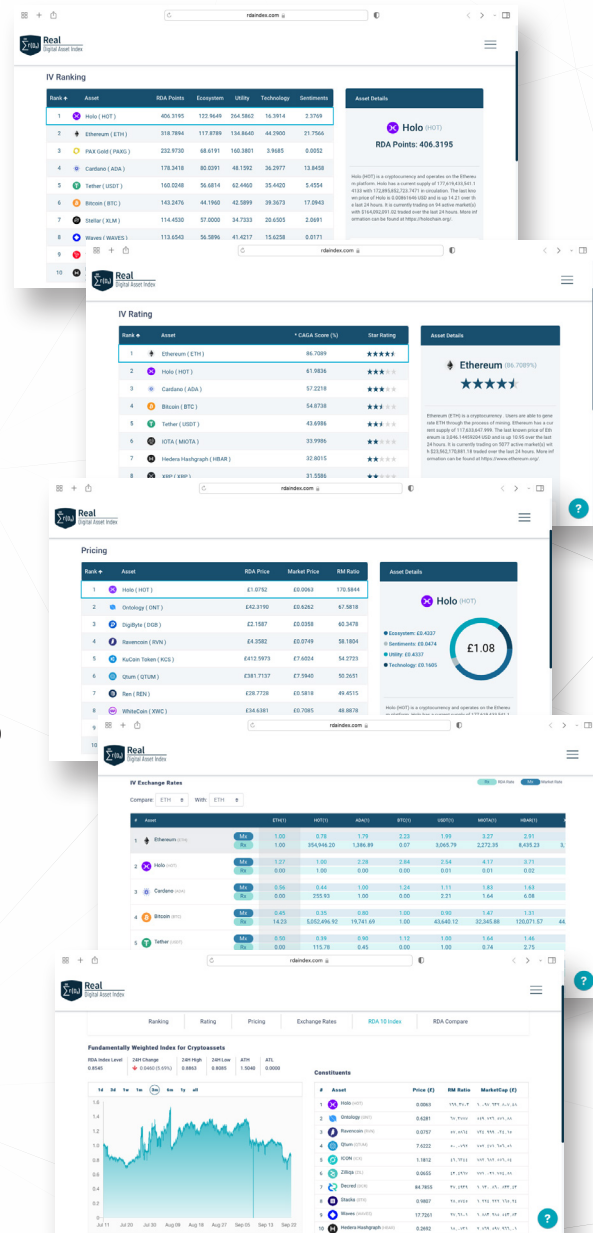

The **RDA Index Data Suite** is comprised of 5 products:

- RDA IV Ranking: Cryptoasset ranking by intrinsic value
- RDA IV Rating: A 5-star rating system for asset investibility
- RDA Pricing: Asset pricing based on underlying intrinsic attributes
- RDA Exchange Rates: Intrinsic exchange rate between assets
- RDA 10 Index: Top 10 assets by intrinsic value, investibility, low systemic risk and probably high returns.

RDA Index Data Suite Licensing enables you to:

- Qualify and quantify the intrinsic value of the top 300 cryptoassets.
- Identify risks related to asset integrity
- Discover the fundamental price of each asset
- Determine the intrinsic exchange rate per asset pair
- Optimise investment returns at a reduced risk

Crypto fundamentals at market speed
Greater Insights. More Opportunities. Bigger wins.

RDA INDEX DISCLAIMER

RDA Index is owned and maintained by Xtant Real, a company registered in England and Wales. Xtant Real does not accept any form of compensation from creators, issuers or sponsors of cryptoassets, nor is its RDA Index intended to endorse or promote investment in any specific cryptoasset. Cryptoassets carry a high degree of risk. The UK Financial Conduct Authority (FCA) and other regulators around the world have expressed concerns with the volatility of cryptoassets and the actions of its promoters. Xtant Real strongly recommends that you review their guidance such as the public statement on cryptoassets by the Financial Conduct Authority.
