

Separate the Wheat from the Chaff with RDA Ratings

Introducing RDA Intrinsic Value (IV) Rating licensing: A 5-star rating system for cryptoasset fundamentals

Xtant Real®

Boost your market intelligence with the most comprehensive and reliable cryptoasset rating data. **Real Digital Asset (RDA) IV Rating** enables you to gain a holistic view of assets across four attribute groups, namely business ecosystem, stability, utility, technology efficiency and sentiments. Constantly updated and delivered in a format for seamless integration with your existing data, RDA IV Rating data delivers a unique insight into risks related to asset integrity and systemic issues, offering unlimited opportunities to propel your risk management, diversify your portfolio and grow market share.

RDA IV Rating Data Licensing enables you to:

- Determine the fundamental rating of the top 300 cryptoassets by market capitalisation
- Identify risks related to asset integrity
- Recognise toxic assets in real-time
- Formulate quality standards and consumer protection policies for cryptoassets
